ASSIST. PRINCIPALS: Helen Butler & Gloria Puopolo

Dear Families,

Winter is definitely here, I also note the lost property box spilling out over the edges. Cold mornings and warmer days lead to kids taking layers off and leaving them where they drop them. Please put your child's name on all items of uniform so we can support the items going back to the right home.

Staff and students have been working on the new reporting format and we are all very excited to present it to families in term three.

Student reports provide students, teachers and parents with a clear and concise picture of a student's achievement and progress at a point in time. Teachers make informed and consistent decisions about student progress against the achievement standards using a variety of assessments and observations to inform their judgement. They map the student's learning against the achievement standards, and place the student on the learning continuum, that best reflect the student's level of performance and progress.

You may notice some changes to our student reports for this semester in line with the implementation of the new Victorian Curriculum in all government schools from the beginning of 2017. The Victorian Curriculum replaces the previous AusVELS curriculum.

As a result schools now have the flexibility to design their reports to show each student's learning progress. Our school staff have consulted with School Council to create a student report that best meets the needs of our school community.

The Victorian Curriculum is structured as a single developmental learning continuum and is organised by levels not years of schooling. The curriculum consists of Towards Foundation Levels A to D and Levels Foundation to 10. All curriculum areas have achievement standards, describing what students are able to understand and do.

All students progress along the learning continuum at their own rate and from their own starting point. Students are taught at the level that suits their needs, rather than being taught to the year level and age group they are in. Teachers provide learning opportunities to support the learning for all students, including those students with additional learning needs or a disability.

Please keep in mind that as this is a new curriculum this report is not designed nor should be compared to previous years' reports. We can, however, show your child's progress in English and Mathematics in Semester 1 as these learning areas were introduced and taught in 2016. For all other curriculum areas being introduced with the new curriculum, student progress can only be shown in reports from Semester 2, 2017 onwards.

Further information about the Victorian Curriculum can be found online at: victoriancurriculum.vcaa.vic.edu.au/ stayed tuned for more information.
