Dear Parents, Carers and Community,
 Welcome back to term 2! It has been a great start this week for learning across the school, with both teachers and learners returning with excitement.

This term we will begin some small projects brightening up the outside school environment, including the front landscaping project. Thank you to all of those families who have entered the family project competition which closed today. The Student and Staff Leadership Team look forward to revealing the design and beginning the project.

A term calendar will be sent home shortly with the dates of upcoming learning experiences and school and community activities across the term. This will also be available on our website and FlexiBuzz.

Thank you to our School Council members who met this week to undertake School Council Finance training, and the opportunity to learn together alongside staff. I recently read in the 2012 NRC report *Education for Life and Work*; that the following essential features are critical in promoting student's acquisition of transferable knowledge;

- Engaging learners in challenging tasks, with supportive guidance and feedback
- Encouraging elaboration, questioning, and self-explanation
- Using multiple and varied representations of concepts and tasks is important
- Teaching with examples and cases
- Encouraging student motivation; and
- Using formative assessment
- I could not help but think....this is what we strive for here at KVPS each day for our learners, and as learners ourselves. I look forward to what this will look like, feel like and sound like as both students and teachers engage in learning this term.

Thank you for your on-going support in our learning community.

2018 Year 5/6 Canberra Camp

Students from our school have recently undertaken an education tour of the national capital. Students were given the opportunity to participate in a variety of educational programs with a focus on Australia's history, culture, heritage and democracy.

The Australian Government recognises the importance of all young Australians being able to visit the national capital as part of their Civics and Citizenship education. To assist families in meeting the cost of the excursion the Australian Government is contributing funding of \$30 per student under the Parliament and Civics Education Rebate program towards those costs. The rebate is paid directly to the school upon completion of the excursion.
